

INTENT

At Milby Primary School, our curriculum is designed and planned in order to achieve the following aims:

- Provide a broad and balanced education for all children.
- Enable children to acquire and develop relevant knowledge and skills so that they know more, remember more and can do more.
- Equip children with the skills needed to tackle the modern world and empower them to become lifelong learners and change makers.
- Provide children with the essential cultural capital needed to be educated citizens.
- Celebrate children's unique characteristics, interests and talents.
- Support children's spiritual, moral, social and cultural development including their understanding of British values.
- Support children's physical and mental health and develop responsibility for their own wellbeing.
- Ensure all children know they have the right to be safe, to identify and manage risks, and how to ask for help or support when needed.
- Lay the foundations for positive relationships and act with responsibility and integrity, showing respect to all.
- Ensure high expectations and a culture of inclusion for every child.
- Understand where Milby fits into the wider world and key events, people and places within our local community.
